EXPERIENCE

Frontend Developer Intern　　　　　　　　11/2022 - 03/2023
THE SPARKS FOUNDATION　　　　　　　　　　　Srinagar

- Designed and coded multiple client portfolio websites using cutting-edge frontend technologies such as HTML5, CSS3, JavaScript, React.js, Bootstrap ensuring visually appealing and responsive interfaces that met clients specifications and needs.
- Spearheaded the utilization of prototyping and mockup tools to create comprehensive visual representations of website layouts and functionalities, resulting in a 30% reduction in design iteration time and ensuring alignment with project goals.
- Revolutionized UX/UI design methodologies, driving a 40% surge in user engagement and a 25% increase in website retention rates across diverse projects.
- Implemented data-driven design enhancements, resulting in a 50% improvement in user interaction metrics.

Software Developer Intern　　　　　　　　04/2022 - 08/2022
WEBX TECHNOLOGIES　　　　　　　　　　　　Srinagar

- Developed and implemented a comprehensive School Fees Payment Management System, streamlining fee collection, tracking, and reporting processes, resulting in a 50% reduction in payment errors and an increase in overall efficiency.
- Successfully resolved critical technical challenges, resulting in a 20% reduction in project timeline delays and a 15% increase in overall development efficiency.
- Conducted rigorous testing procedures, including unit testing and user acceptance testing (UAT), identifying and rectifying bugs promptly to ensure the system's reliability and smooth functionality.
- Demonstrated strong problem-solving skills by resolving complex technical challenges during the development phase, showcasing adaptability and a proactive approach to finding innovative solutions.
